Launch offer

Up to 10 Business licenses. Full access, free of charge, in exchange for your product feedback.

/ What you gain

Higher productivity

From ideas to solutions in hours, not weeks.

Autonomous teams

Those who know the business build their own tools.

For you, in practice

You, CEO

Cross-department steering dashboard with KPIs consolidated by department; strategic objectives tracking with status by entity.

You, CFO

Tracking of tax exemption and tax credit files (status, deadlines, missing documents); budget dashboard by cost center.

You, CHRO

Review campaign tracking with automated reminders; onboarding portal with checklist; headcount and turnover dashboard by site...

Suitable for every department: sales, marketing, procurement, operations, legal, and more.

/ How it works

Building a business app has never been this simple.

Intuitive and accessible to everyone, built for your requirements.

1

Describe your need

Write your need in plain language.

2

Generate it in seconds

Build your own tools yourself: tracking, reporting, portals. No developer, no IT project.

3

Deploy and share

Applications that consolidate data, raise alerts, and support decision-making.

YOUR GUARANTEES

/ Peace of mind & security

Secure

Your data stays yours, with high assurance configurations.

Data in Europe

Hosting and data residency in Europe.

Your access

SSO with your existing identity provider.

Sustainable

Designed for controlled use at scale.

BY YOUR SIDE

/ Our support

From kick-off to implementation,
CognitX supports you every step
of the way.

Leyton, a financial performance consultancy founded in 1997, relies on its techlab **CognitX** (200 tech talents and 50 data experts).
